ROOMS

The rooms are located on the ground floor (hill side) or on the first floor without a lift. All are equipped with air conditioning, safe, LED TV and private bathroom with shower (some with bathtub). The ground floor (rooms and common areas) has no architectural barriers. Some double rooms can accommodate a cot or an extra bed for children under 18 years. We have triple rooms (larger) for 3 adults or family rooms, with a double bed and a bunk bed, for 2 adults and 2 children.

The hotel also has rooms in a dependence with the same standards of the hotel (private bathroom, air conditioning, telephone, wifi, safe, led tv...), in the same building, but with independent access, on the second floor with elevator
